VOICE OF SUCCESS

When my friend told me about the course, I was initially hesitant about pursuing it. I had always been interested in finance, but I wasn't sure if the course was the right fit for me.

But that changed when I met Pratham Barot the co-founder of Zell Education, who counselled me about the opportunities that the course had to offer. **What appealed to me was the global recognition and the scope it offered in big MNCS.** Plus the fact that it was a flexible course made it more manageable and allowed me to balance my studies with other commitments.

During my time learning with Zell, I also had the opportunity to intern as an associate for a year. It was a fantastic experience and allowed me to gain valuable industry exposure. When I found out that **I had ranked third in India for the course, it felt surreal and my family was over the moon with pride.**
