VOICE OF SUCCESS

I was ecstatic when I found out that I had ranked third in India for the course.

It was a surreal feeling and my family was over the moon with pride.

-Ronak Dhruv

RONAK DHURUV

When my friend told me about the course, I was initially hesitant about pursuing it. I had always been interested in this field but I wasn't sure if the course was a right fit for me.

All that changed when I met Pratham Barot, the co-founder of Zell Education, who counselled me about the opportunities that the course offered. **What appealed to me was the global recognition and the scope it offered in big MNCS.**

Plus, the fact that it was a flexible course, made it more manageable and allowed me to balance my studies with other commitments. During my time learning with Zell, I **also had the opportunity to intern as an associate for the year**. It was a fantastic experience and allowed me to gain **valuable industry exposure**. I was ecstatic when I found out that I had ranked third in India for the course, it was a surreal feeling and my family was over the moon with pride.
